Full Web Stack Developer with 5 years of experience. Proficient in a wide array of programming languages, I excel in both backend and frontend development. A collaborative team player, I navigate the development process seamlessly, bringing technical expertise and effective communication to the table. Continuous improvement is my mantra, ensuring I stay ahead in the ever-evolving tech landscape. Let's connect and explore how my skills can contribute to your projects!

WORK EXPERIENCE

Full Stack Web Developer
Vavasoftware Corporation, BGC
Full-Time: September 2024 – April 2025

- Designed and developed scalable web applications and SPAs using CSS, SCSS, PHP, Laravel, TALL Stack, Vue, React, Git, and MySQL.
- Created and implemented RESTful APIs for seamless communication between front-end and back-end systems.
- Integrated third-party APIs, including Crypto payment gateways and Game Provider APIs, ensuring secure and efficient data exchange.
- Developed features and functionalities for a game system, ensuring stability and performance.
- Collaborated with product managers to prioritize and deliver new features on schedule.
- Managed version control using Git and Bitbucket to ensure smooth collaboration and code integrity.
- Implemented and maintained CI/CD pipelines to automate testing, deployment, and delivery processes.
- Integrated and managed AWS S3 for efficient cloud storage and file management.
- Conducted code reviews, identified bugs, and applied necessary fixes to maintain code quality and efficiency.

Front End Developer
Boss Deal
Freelance: August 2024 – March 2025

- Designed, developed, and maintained a scalable web application and SPAs using CSS, SCSS, PHP, Laravel, TALL Stack, Vue, React, and MySQL to deliver a seamless user experience.
- Implemented and optimized RESTful APIs for efficient communication between the front-end and back-end of the game.
- Managed version control using Git and Bitbucket to ensure smooth collaboration and code integrity.

- Worked closely with product management to prioritize, plan, and successfully deliver new features on schedule.
- Conducted thorough code reviews, identified and resolved bugs, and implemented performance optimizations to ensure high-quality, maintainable code.

Full Stack Web Developer
FEIWIN, Cavite
Full-Time: October 2023 – September 2024

- Designed, developed, and maintained a scalable web application and SPAs using CSS, SCSS, PHP, Laravel, TALL Stack, Vue, React, and MySQL to deliver a seamless user experience.
- Implemented and optimized RESTful APIs for efficient communication between the front-end and back-end of the game.
- Integrated third-party APIs, including Game Provider APIs, ensuring secure and efficient data exchange.
- Integrated and managed AWS S3 for efficient cloud storage and file management.
- Managed version control using Git and Bitbucket to ensure smooth collaboration and code integrity.
- Implemented and maintained CI/CD pipelines to automate testing, deployment, and delivery processes.
- Worked closely with product management to prioritize, plan, and successfully deliver new features on time.
- Conducted thorough code reviews, identified and resolved bugs, and implemented performance optimizations to ensure high-quality, maintainable code.

Full Stack Web Developer & 2d Game Developer
Infinite Evolution Technology Incorporation, Pasay
Full-Time: October 2022 – September 2023

- Developed and maintained a scalable web application and SPAs using CSS, SCSS, PHP, ThinkPHP, Cocos2dx, Lua and MySQL.
- Developed and maintained a scalable mobile game application using Cocos2dx and Lua.
- Implemented and optimized RESTful APIs for efficient communication between the front-end and back-end of the game.
- Managed version control using Git and Bitbucket to ensure smooth collaboration and code integrity.
- Implemented and maintained CI/CD pipelines to automate testing, deployment, and delivery processes.

- Collaborated with product management to prioritize and deliver new features on time.
- Conducted thorough code reviews, identified and resolved bugs, and implemented performance optimizations to ensure high-quality, maintainable code.

Full Stack Web Developer
RAGOA Business Solutions
Freelance: January 2021 – September 2023

- I develop and maintain Single Page Applications (SPAs) and web-based systems, including Booking Management Systems, Content Management Systems, Delivery Management Systems, Voting Management Systems, E-commerce platforms, and School Management Systems, ensuring efficiency, scalability, and a seamless user experience.
- Managed version control using Git and Bitbucket to ensure smooth collaboration and code integrity.
- Implemented and maintained CI/CD pipelines to automate testing, deployment, and delivery processes.
- Integrated and managed AWS S3 for efficient cloud storage and file management.
- Collaborated with product management to prioritize and deliver new features on time.
- Conducted thorough code reviews, identified and resolved bugs, and implemented performance optimizations to ensure high-quality, maintainable code.

Full Stack Web Developer
CaPEx: Cargo Padala Express
Full-Time: AUGUST 2019 – September 2022

- I develop and maintain Single Page Applications (SPAs) and web-based systems, including Warehouse Management Systems, Accounting Systems, HR Information Management Systems, Booking Management Systems, and E-commerce platforms, ensuring efficiency, scalability, and a seamless user experience.
- Managed version control using Git and Bitbucket to ensure smooth collaboration and code integrity.
- Implemented and maintained CI/CD pipelines to automate testing, deployment, and delivery processes.
- Integrated and managed AWS S3 for efficient cloud storage and file management.
- Collaborated with product management to prioritize and deliver new features on time.
- Conducted thorough code reviews, identified and resolved bugs, and implemented performance optimizations to ensure high-quality, maintainable code.

EDUCATION

Bachelor of Science in Information Technology (2015 – 2019)

STI Paranaque – Paranaque City, Metro Manila

SKILL

Front End

Vue.js, React.js, JavaScript, Jquery, Alpine.js, Tailwind CSS, CSS, SCSS, Bootstrap, Flutter, jQuery, Cocos2dx, and Livewire

Back End

MySQL, SQLite, Redis, PHP, Laravel, Livewire, Lua, ThinkPHP, and Python, Git, Bitbucket, Linux, and Laravel Forge, Digital Ocean, AWS

Tools

ChatGPT, Visual Studio Code (VS Code), PHPStorm, Postman, Herd, Laragon, Redis, MySQL Workbench, Sequel Pro, TablePlus, Git, GitHub, GitLab, Docker, Laravel Telescope, Laravel Horizon, Laravel Valet, Composer, Node.js, NPM, Vite, Tailwind CSS, Nord VPN.
